

Tips for Home

1. Allow for 15 to 20 minute sessions throughout the week.
2. Encourage completion of every lesson that is started. Mistakes are OK. Your learner should not shy away from incorrect answers, as they help find the right lesson to build learning progress.
3. We know it's difficult, but please resist the urge to help with answers so that your learner doesn't move ahead before he or she is truly ready.

1. After your learner has logged in and their DreamBox session has started, click a link below the DreamBox Activity Window that says "set up parent access"

2. To link an additional learner to your parent dashboard, use the same process but login as the second learner. This time login as a current customer with the email address and password you use to sign in to your Parent Dashboard.
